To Whom It May Concern,

I am happy to recommend Mr. Santhosh Reddy Parkula as a strong candidate in the field of Big Data and Data Science. Santhosh is currently studying for his Master's in Software Engineering and Digital Transformation at ESIGELEC. He has shown good technical skills and a real interest in solving problems using data.

During his studies, Santhosh has worked well with large datasets, created and improved data processing methods, and used big data tools like Hadoop and Java MapReduce. He pays close attention to details and is able to solve difficult problems carefully and effectively.

Besides his technical skills, Santhosh communicates well and works professionally with others on projects. He is motivated, disciplined, and eager to learn new things. His positive attitude and reliability make him a helpful member of any team.

I believe Santhosh will do well in any big data or data science role and I recommend him for opportunities that will help him grow and contribute more.
Please feel free to contact me if you need any more information

Sincerely,
PHD. Marwa Brichni
Professor at ESIGELEC
